

edX

This guide will help you sign up for online courses that are hosted on edX. After completing this, you will have a learner profile and be registered as a student in this course. While you'll be working with your peers to get through the materials, many of these courses also have active and supportive online communities for you to engage with.

1. Navigate to www.edx.org and click the Register or Sign In button on the top right-hand corner. All you need to do is fill in the form, and you'll be ready to go. Create a username and password that you can easily remember, and be sure to use an email address that you check regularly. You might get a few emails from these courses, but don't despair! They are really useful for keeping you motivated, and helping you throughout the course.

2. Once you're logged in, search for your course in the search bar. You can also update your profile by clicking on your profile name on the top right. Consider using a photo or image that

you feel represents you in your profile. It is often easier to engage with people online if you can see something that represents them and makes them unique.

The screenshot shows the edX website interface. At the top, there's a navigation bar with the edX logo, links for Courses, How It Works, Schools & Partners, and About, and a user profile for 'grifpeter'. Below the navigation bar, a search bar contains the text 'I want to learn about...'. The main content area displays 'Viewing all 741 results' and a 'Featured Courses' section. This section features three course cards, each with a 'VERIFIED' badge and a green checkmark icon. The first card is for 'MongoDBx M101x: Introduction to MongoDB using the MEAN Stack', starting on November 16, 2015. The second card is for 'UQx IELTSx: IELTS Academic Test Preparation', starting on November 27, 2015. The third card is for 'UC3Mx IT.1.1x: Introduction to Programming with Java Part 1: Starting to Code with Java', starting on November 17, 2015. To the right of the featured courses is a 'Refine your search' sidebar with two sections: 'Availability' and 'Subjects'. The 'Availability' section lists 'Current' (256), 'Starting Soon' (70), 'Upcoming' (104), 'Self-Paced' (168), and 'Archived' (302). The 'Subjects' section lists various fields of study with their respective counts: Architecture (8), Art & Culture (55), Biology & Life Sciences (73), Business & Management (110), Chemistry (27), Communication (32), Computer Science (143), and Data Analysis & Statistics (67).

About this course

15 Reviews 3.5/5 ★★★★★

This 16-week Spanish language course is aimed at students who would like to learn conversational Spanish starting with Spanish basics. The course introduces everyday language and includes activities to practice all four language skills: reading comprehension, writing, listening comprehension and speaking.

After completing this course, you will be prepared to introduce yourself, ask basic questions, and conduct

[See more](#)

What you'll learn

- Basic conversational skills
- The alphabet and numbers

Length: 16 weeks

Effort: 4 hours/week

Price: FREE
Add a Verified Certificate for \$40

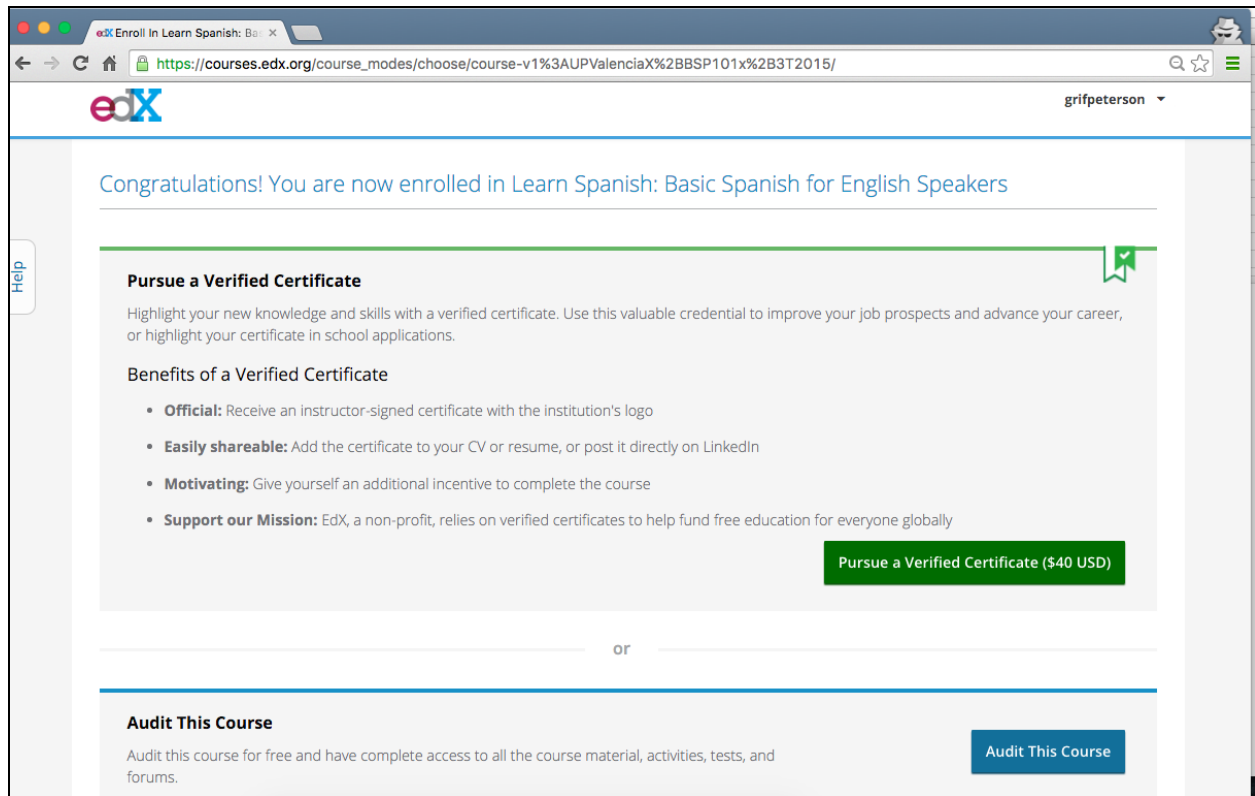

Institution: UPValenciaX

Subject: Education & Teacher Training

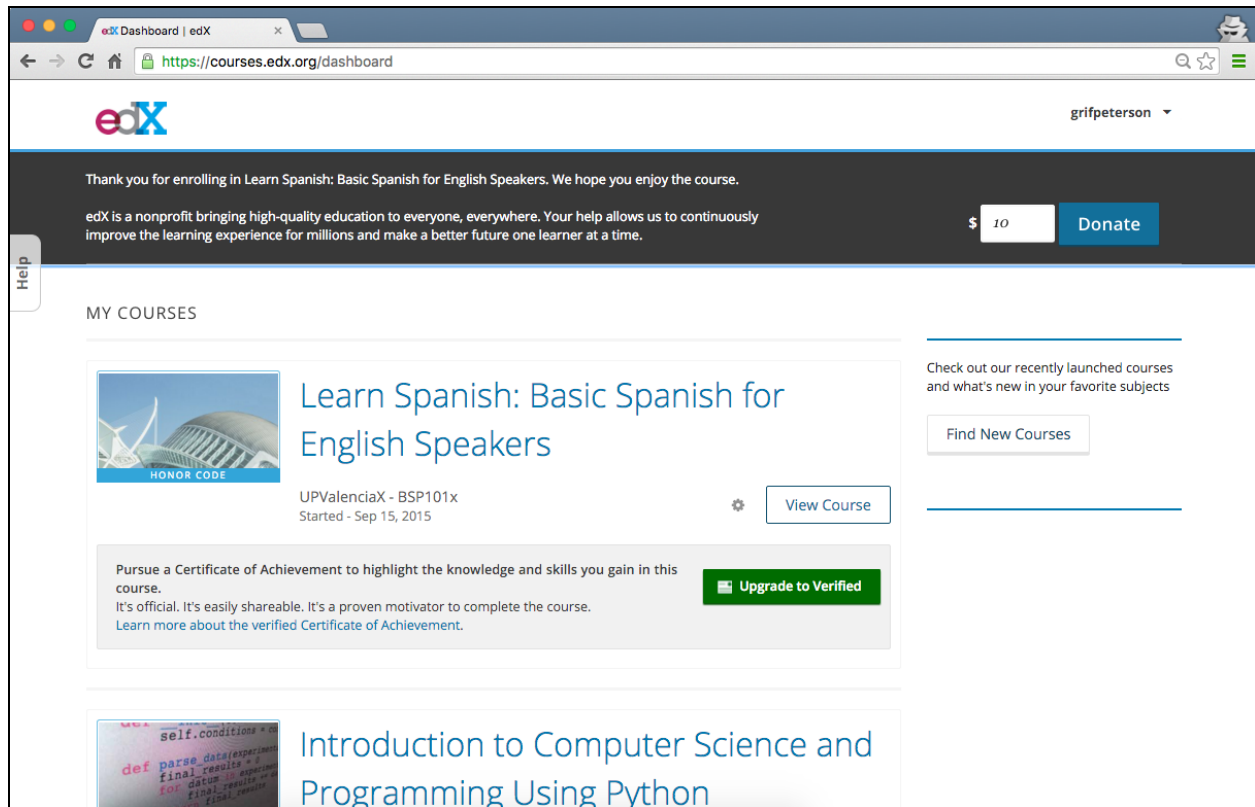

Level: Introductory

Languages: English

4. If you are presented with a number of options, click 'Audit this Course'. (You'll still have access to all the same materials as people who are paying for a certificate). Of course, you are welcome to pursue a verified track if you prefer.

5. Once you select how you'd like to enroll in the course, you should click 'View Course' to be taken to the course materials.

6. On edX, you'll see a number of tabs across the top of the screen. Courseware has the materials you'll be working through each week. Course Info includes updates from the teaching team. Discussion is where you can communicate with others taking the course around the world.
