

MIT OpenCourseware

This guide will help you sign up for online courses that are hosted on MIT OCW. MIT doesn't require a login to have access to the resources, so this guide will help you identify your course materials to get you started.

1. Navigate to ocw.mit.edu and click on the Courses button on the top left, or search for the course you are looking for to the right.

2. Search for your course you are looking for to be taken to the course homepage. OCW Scholar Courses are particularly good because they are designed specifically for offline study.

3. The course page is the place that you should return to each time you want to work on the course. Down the left hand side, you'll see the course home, syllabus, software, references, and all the activities/readings for the course.

Good luck!
