# Codeacademy

This guide will help you sign up for online courses that are hosted on Codeacademy. After completing this, you will have a learner profile and be registered as a student in this course. While you'll be working with your peers to get through the materials, many of these courses also have active and supportive online communities for you to engage with.
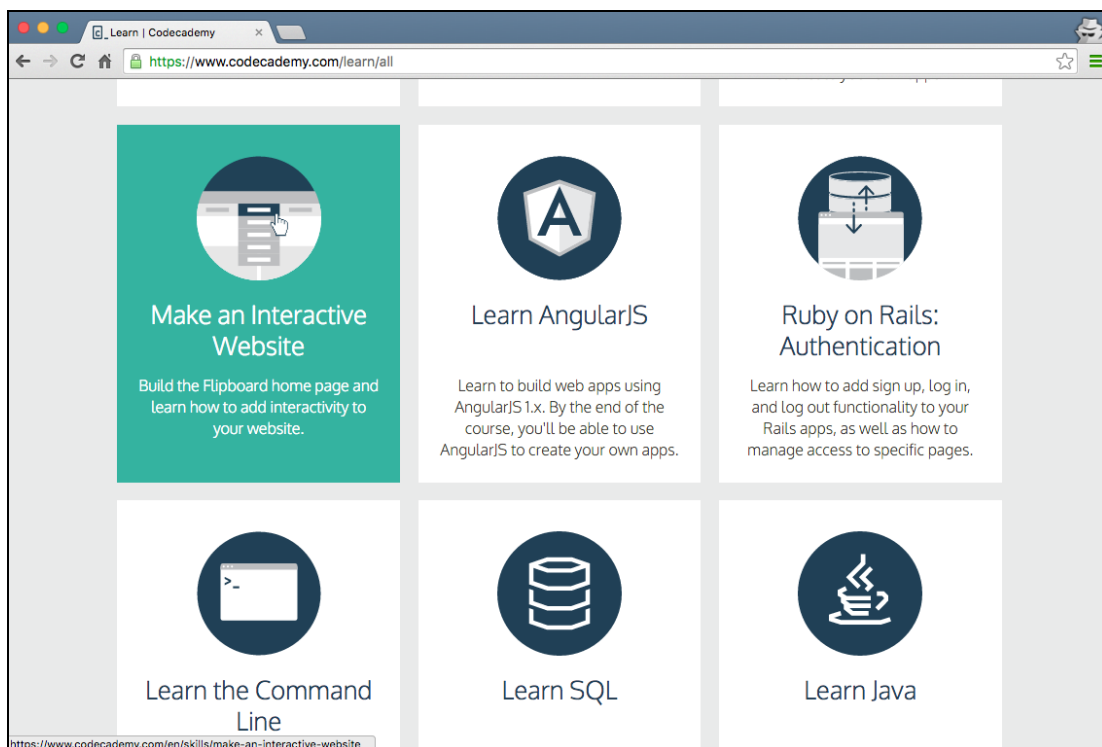

1. Navigate to www.codeacademy.com and click the Sign Up button on the top right-hand corner. All you need to do is fill in the form, and you'll be ready to go - no emails or verifications needed. You'll get a few emails from Codeacademy, but don't despair! They are really useful for keeping you motivated, and helping you throughout the course.

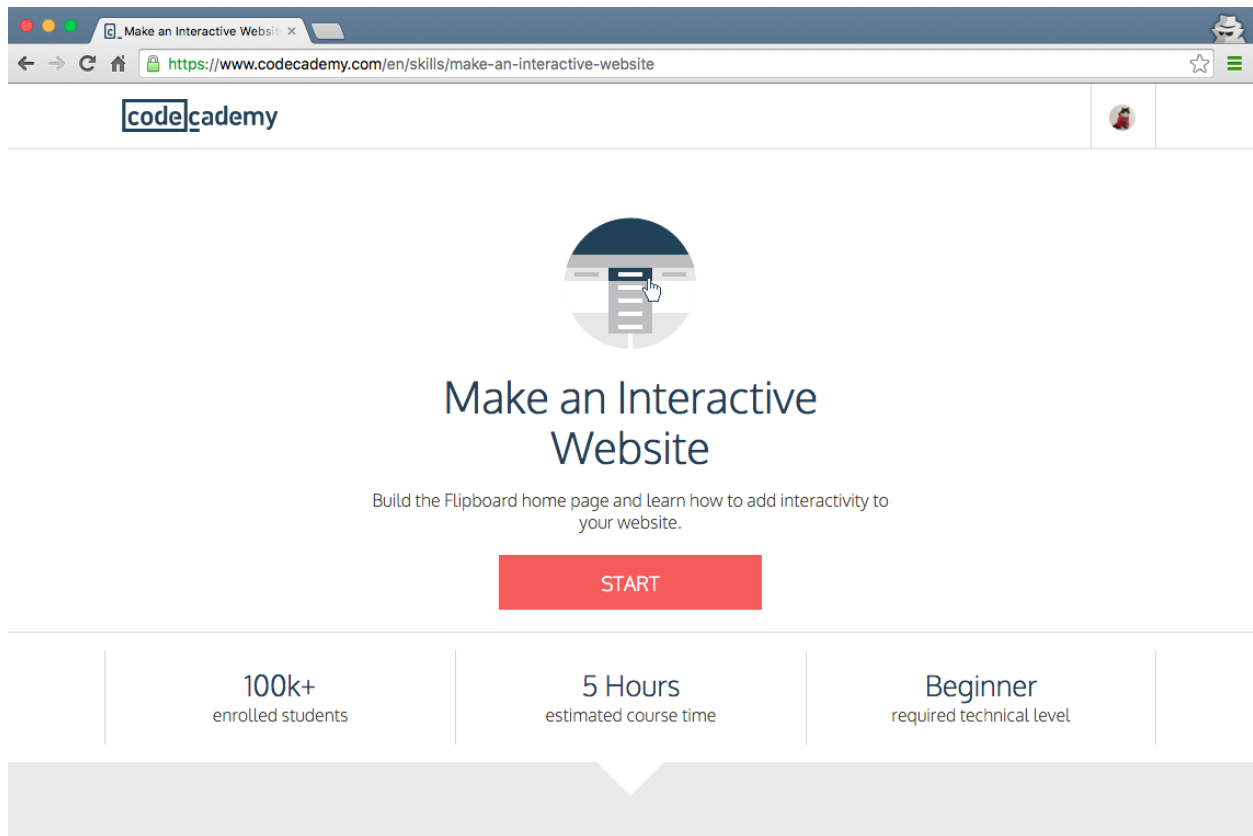

2. Once you're logged in, you'll see this home screen. Note that you can edit your profile in the top right hand corner.

3. Scroll down until you see the course you are looking for, and then click on it.

4. Now you've made it to the course page. This is the place you'll return each week to work on your materials. Click start and get going!

Good luck!
